

The background features a complex network of thin grey lines and dots, forming a web-like structure. Scattered throughout are various triangles of different sizes and orientations, some with solid outlines and others with dashed or dotted lines. The overall aesthetic is technical and geometric.

Some Practice Problem

on
printf()

Problem 1

Description: Write a C program to display the following output in the given format.

Bangladesh is my country. I Love my country.

Problem 2

Description: Write a C program to display the following output in the given format.

```
The woods are lovely, dark and deep,  
But I have promises to keep,  
And miles to go before I sleep,  
And miles to go before I sleep.
```

Type 1: Use as many printf() as you need.

Type 2: Use exactly one printf().

Problem 3

Description: Write a C program to display the following output in the given format.

```
1
12
123
1234
```

Type 1: Use as many printf() as you need.

Type 2: Use exactly one printf().

Problem 4

Description: Write a C program to display the following output in the given format.

```
*  
**  
***  
****  
***  
**  
*
```

Type 1: Use as many printf() as you need.

Type 2: Use exactly one printf().

Problem 5

Description: Write a C program to display the following output in the given format.

```
*****  
*      *  
*      *  
*      *  
*      *  
*      *  
*****
```

Type 1: Use as many `printf()` as you need.

Type 2: Use exactly one `printf()`.

Problem 6

Description: Write a C program to display the following output in the given format.

```
  1
 1 2 1
1 2 3 2 1
1 2 3 4 3 2 1
```

Type 1: Use as many printf() as you need.

Type 2: Use exactly one printf().

Problem 7

Description: Write a C program to display the following output in the given format.

Problem 8

Description: Write a C program to display the following output in the given format.

```
*****
```

```
*****
```

```
***
```

```
*
```

```
***
```

```
*****
```

```
*****
```

Problem 9

Description: Write a C program to display the following output in the given format.

11+ 22 = 33

Problem 10

Description: Write a C program to display the following output in the given format.

10 x 25 = 250

Problem 10

Description: Write a C program to display the following output in the given format.

6 / 3 = 2

Problem 10

Description: Write a C program to display the following output in the given format.

```
135 % 2 = 1
```

Thank You
